My mission is to research how AI is shifting society biases and changing our day to day.

I want to share knowledge, analyze AI and bring it closer to those who need it the most.

EXPERIENCE

2024 – now — **Technical Designer & BIM**
Sustainer · modular LVL timber. Brought AI into daily work; built 30 Rhino and Python tools, including a live QA model risk monitor.

2023 – 2024 — **Junior BIM Coordinator**
DIBS42 · Revit library, templates, MEP team lead

2022 – 2023 — **Junior BIM Engineer**
Compact Brandpreventie · Dynamo, IFC checks

2021 — **Constructing Architect intern**
Vallentin Haugland

EDUCATION

2026 — **AI Fluency: Framework & Foundations**
Anthropic Academy

2025 — **Construction Project Management**
Columbia University

2022 — **Spatial Computational Thinking**
NUS

2018 – 2022 — **BA Architectural Technology & Construction Management**
VIA University College, Denmark

RESEARCH AND WRITING

R-01 **Meritocracy in the times of AI: feeling useless is the new norm** · 2026

R-02 **AI in AEC: from hype to actual work** · 2026

R-03 **AI and architectural education: a paradigm shift** · 2026

Seven free guides (EN/ES): the EU AI Act for construction · AI risks and a policy template · AI strategy, incl. an education edition · AI tools · AI terms

FOCUS

EU AI Act and regulation
Risk levels, roles and duties, explained for practice

Risk assessment and AI policy
Risk maps and one-page AI policies for small firms

Validation and human oversight
Validate data, measure performance, decide what a person checks

AI literacy and education
AI Fluency 4D framework; AI rules for teaching

Impact on society
Fairness, pricing algorithms, access to AI, work and self-worth

TOOLS

Claude Code · Python · Rhino 3D · Grasshopper · RhinoCommon · Revit · Dynamo · IFC · Autodesk Suite · Twinmotion · MS Project · Figma · Adobe CC
